

CHOLERA OUTBREAK IN KATHMANDU VALLEY

11th July 2022

Ministry of Health and Population
Department of Health Services
Epidemiology and Disease Control Division
Kathmandu, Nepal

Highlights

- As of 11th July 2022, a total of 27 cases of Cholera has been reported
- No new case detected in the last 72 hours
- Cholera was confirmed by stool culture in 11 cases, 11 by RDT and hanging drop in 5 cases.
- Sukraraj Tropical and Infectious Disease Hospital (STIDH) reported 2 cases on 16 June, 1 case on 17 June, 1 case on 19 June with an additional case on 21 June 2022. Two cases are residents of Bagbazaar, Kathmandu-28; 1 case is resident of Sanepa, Lalitpur-3; 1 case from Dilibazaar, Kathmandu and 1 case from Boratar, Balaju, Kathmandu-16.
- On 20th June, Patan Academy of Health Sciences (PAHS) reported 1 microbiologically confirmed case of Cholera through EWARS, resident of Kapan, Budhanilkantha-10.
- The first two cases reported from STIDH belonged to same family and household and worked in Dillibazar area in a furnishing shop. Initial field investigation conducted by joint team from Kathmandu DHO, Metropolitan, EDCD, DFTQC and WHO revealed using tap water for drinking purpose without boiling. Initial case investigation of other two cases revealed that source of drinking water was commercial jar water.
- 4 samples of stored tap, Jar and ground water from index case household and workplace found contamination with coliform
- Out of 62 water samples taken and tested jointly by DWSSM, EDCD, KUKL, 41 samples showed contamination with fecal E.coli.
- KVWSMB conducted spot test of Free Residual Chlorine (FRC) in 21 tankers and out of them, 10 were not detected with FRC.
- Out of 44 water sample tested, 10 tested for fecal E.coli in Kathmandu valley.

Activities of response and plan:

- On 19th June 2022 EDCD conducted emergency meeting on preparedness and response of Cholera involving all stakeholders from DoHS, STIDH, Kathmandu HO, and Metropolitan.
- Press brief sent to HEOC and released by MoHP
- Team division and workplan has been formulated after meeting with concerned stakeholders
- On 1st of July 2022 A team from EDCD along with District team conducted field epidemiological investigation at Kirtipur and brought 6 samples of three cases.
- On 6th July, EDCD director briefed on cholera outbreak on regular press brief at NTV.
- Investigating team visited Kageshwori Manahara and Mulpani Hospital to conducted field investigation in support of WHO.
- Booth campaign that was conducted in Ward 13,14,16,28 and 29 of Kathmandu Metropolitan City, 402 households voluntarily brought their drinking water for testing using Presence/Absence (H2S) vial between June 16 to June 23,2022. Out of those tested and results received (76), 10 samples were found positive with coliform and 66 samples were found to be negative.
- Altogether 256 households have collected Piyush from the booths from various locations so far.
- WASH Awareness program is going on.
- On 9th July 2022, EDCD team visited Mulpani Municipality Hospital to investigate surge in cases of Cholera detected by RDT.

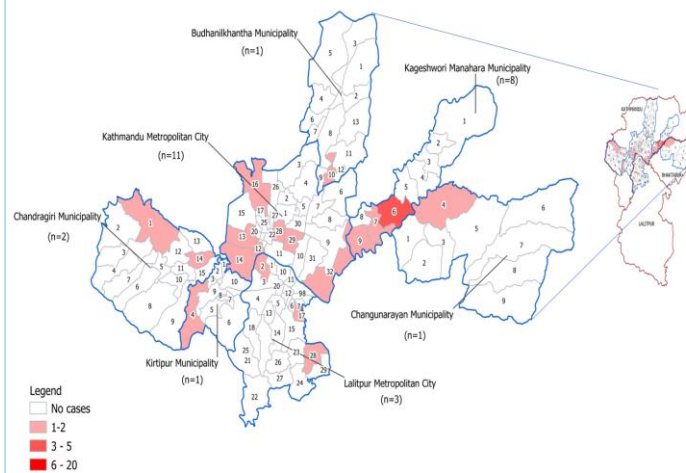

Plan

- Continue setting up water testing booth at different sites.
- FCHV training for door-to-door awareness.
- Continued surveillance and field investigation in Lalitpur area.
- Meetings to review the progress by all stakeholders.
